Mechanical and Electrical Drafting Positions

W. L. Cassell & Associates, Inc. presently has openings for entry level or experienced drafters. Knowledge of mechanical and electrical building system is desirable but not mandatory. Applicants should be competent with Autodesk Revit and Auto Cad and the suite of Microsoft Office products. Strong written and verbal skills are required.

Primary job duties will include developing 2D and 3D mechanical and electrical system models for new and existing building construction, plotting and scanning projects, gathering necessary job information, creating as-built plans, generating addendums and RFI’s and drafting engineering red lines. Other duties could evolve into using mechanical and electrical engineering modeling software.

W. L. Cassell & Associates, Inc. has been in business since 1933 and is located in downtown Kansas City, MO. The firm presently employees 25 individuals. The majority of the projects are done in a 200 mile radius of Kansas City.

Present Clients include Saint Luke’s Health System, Cerner, The University of Kansas, The University of Missouri, Kansas State University, Sisters of Charity of Leavenworth, The City of Kansas City, Kansas, Johnson County, Kansas to name a few. Past projects include the Kansas City Performing Arts center, The remodel and addition to the Nelson Atkins Museum of Art, Major Additions to Saint Luke’s Hospital near the Country Club Plaza to name a few. Projects range from complete new buildings to additions to remodels. The close proximity of projects coupled with the wide range of projects offers a great learning environment for our Staff.

Hourly compensation will be negotiated depending on qualifications. Benefits include paid healthcare insurance for the employee (includes dental and vision coverage), 401(k) retirement plan, and vacation time.

Interested individuals should email a cover letter and resume to:
